SKILLS

LANGUAGES

- Javascript
- Typescript
- Dart
- C++
- CSS3/SASS

FRAMEWORKS

- Angular
- Node.js
- Express.js, Koa.js
- Flutter
- AWS Serverless
- Bootstrap 4

OTHERS

- MongoDB
- Kubernetes (beginner)
- Progressive Web Apps
- Kafka
- Amazon Web Services
- Rxjs
- ButterCMS

EDUCATION

PUNE INSTITUTE OF COMPUTER TECHNOLOGY

BE IN INFORMATION TECHNOLOGY
November 2020
Cum. GPA: 8.21

12TH HIGHER SECONDARY

RNC Arts, JDB Commerce NSC
Science College, Nashik Road
HSC: 81.38 %

10TH SECONDARY

K.N.Kela High School
SSC: 92 %

HOBBIES

- Strength Training
- Gaming

EXPERIENCE

SERRALA | SOFTWARE DEVELOPER, MAY 2023 - PRESENT

- Led a team of 3 to design and develop a file-based integration system for exporting invoices to SFTP server, enabling seamless integration with multiple ERP systems. This solution contributed to onboarding over **3** new customers.
- Implemented an asynchronous, scalable system for importing master data from ERP systems into the AP system, ensuring graceful pod shutdown.
- Optimized Datafactory by reducing validation time by approx **30** mins per 10k invoices and minimizing redundant database calls using caching.
- Optimized frontend web application, significantly improving performance, user experience, and overall efficiency.
- Spearheaded efforts to troubleshoot and resolve production issues and system bugs.

UDCHALO | SOFTWARE DEVELOPER, JULY 2020 - APRIL 2023

- Integrated new lines of business such as Holidays, Housing, and Suraksha to boost sales and customer engagement, with Suraksha becoming the **2nd highest** revenue-generating LOB
- Created a dashboard in butterCMS and integrated it in udChalo's app. Reduced the number of api calls to butterCms from **2.8 Million to 2.4 Thousand** (per month).
- Led a team of 3 to develop the Fauji Family feature, driving a consistent monthly average onboarding of **4.5k+** users and steadily increasing platform engagement.
- Key member to migrate the system from monolithic architecture to micro-service architecture.

ACHIEVEMENTS

- Received 'Star Performer of the quarter' award at udChalo.
- Received 'The value enabler' award at udChalo.
- Received 'Best Project' award at udChalo.
- Won bug bash twice at udChalo

PROJECTS

UDCHALO 2.0 | DEVELOPER

- udChalo's mobile application built using flutter for demonstration and comparison purposes.

CODE BUDDY | FULL STACK DEVELOPER

<https://github.com/sagar57patil57/codebuddy>

- Code Buddy is a platform which helps competitive coders to find coding problems based on different difficulty levels.
